About Company

What sets PT Sinar Indah Teknik apart is our commitment to precision, quality and timeliness. With a team of experienced professionals and trained experts, we create custom furniture that is not only strong and aesthetically pleasing, but also functional and fits the client's needs.

We combine modern technology and skilled craftsmanship to produce high-quality products designed with the utmost attention to detail. Every stage, from design to installation, is executed with transparency and open communication to ensure maximum satisfaction.

We are constantly innovating by investing in the latest equipment and working methods. This enables us to provide furniture solutions that are more efficient, sustainable and suited to the demands of modern projects.

VISION & MISSION

Vision

We are determined to shape the future of the custom furniture industry by pushing the boundaries of creativity and manufacturing precision-combining structural functionality with high aesthetic value. Our vision is to be a company recognized for reliability, high-quality results, and the ability to deliver the right solution in all circumstances.

To become the most trusted and innovative partner in steel and iron furniture throughout Indonesia and Southeast Asia.

Mission

1. Creating high quality custom furniture that is both functional and aesthetically pleasing.
2. Providing timely and responsive service for customer satisfaction.
3. Combining modern technology and craftsmanship for precision results..
4. Being a trusted partner through open communication and work integrity.

OUR VALUES

Precision

Every cut, weld, and joint is carefully measured and executed. Precision is the foundation of everything we do—from structural alignment to finishing furniture work. We invest in accurate measurement tools and train our workers to produce work that is consistent, reliable and of the highest standard.

Innovation

We are always looking for smarter and more reliable ways to build. From utilizing advanced robotic welding systems that ensure more consistent welds. Innovation is not just a buzzword for us—it is embedded in our daily operations to help us remain competitive and deliver exceptional value to every client.

Integrity

We honor our commitments and uphold transparency. Our clients trust us to be honest, straightforward, and responsible. We provide clear quotes, realistic timelines, and uphold our word at every stage of a furniture project.

WHY CHOOSE US

*With so many construction service providers in the market, it's important to know what sets us apart. At **PT Sinar Indah Teknik**, we don't just build furniture-we build **trust, precision, and long-term value**. Consistent results over the past **25+ years** reflect reliability, expertise, and client-first service. Here are some of the reasons why our clients continue to choose and recommend us:*

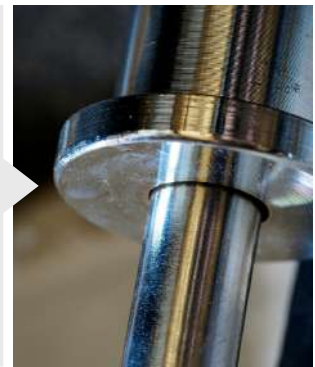

Experience

With over 25 years of real world experience.

Details

Our attention to detail ensures not only aesthetic appeal but also long-lasting durability.

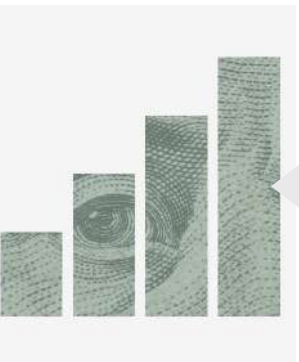

Skilled Team

Certified welders, experienced engineers, seasoned project managers, and tech specialists.

On Time

We are known for keeping our promises and meeting critical schedules.

Pricing

Our pricing structure is transparent, honest, and designed to offer maximum value.

Modern

Advanced machinery systems to ensure maximum accuracy and efficiency.

HOW WE WORK

Our process begins with careful planning—understanding the client's needs and the scope of the furniture project. From there, we move on to technical design and material selection, using only premium-grade iron and certified processes. Each project is managed by a professional team of experienced welders, and technicians who ensure every step is executed accurately and professionally.

At PT Sinar Indah Teknik, we believe that excellence begins with the smallest detail. Every steel component we fabricate is a reflection of our commitment to precision, strength, and lasting quality.

During the fabrication and installation stages, we maintain open communication with our clients, providing regular updates and involving them in critical decision-making. This collaborative approach allows us to deliver not only structures, but also customized solutions that meet both functional and aesthetic expectations.

By combining modern tools with cutting-edge innovation, we deliver iron constructions that are strong, visually pleasing and built to last.

OUR SERVICES

Company

PT Anugrah Sinarindo Perkasa offers comprehensive steel construction and fabrication services tailored for industrial and commercial clients. We handle large-scale projects such as warehouses, factories, and structural steel frameworks. Backed by a skilled team and advanced machinery, we deliver efficient, precise, and safety-compliant solutions. Our services include structural design, component fabrication, and on-site installation, all managed with a well-organized and timely execution system. We also provide mass production services with consistent quality and competitive pricing, making us a reliable partner for businesses across Indonesia.

Individual

We provide tailored ironwork solutions for individual clients seeking durable and aesthetically refined installations for residential or private use. Our services include the fabrication of iron gates, stair railings, lightweight steel canopies, carports, and custom-designed furniture such as tables and shelving units. Every product is manufactured with meticulous attention to detail. With a commitment to personalized service, we accommodate each client's unique preferences to deliver results that are elegant, secure, and enduring.

HIGH QUALITY

Step into a realm of exceptional craftsmanship with our furniture collection, where only the finest steel is used to create durable and stylish pieces. Our meticulous finishing process employs the highest quality materials, ensuring that each item embodies sophistication and resilience.
